

Washington, DC - The 2022 MARINE CORPS MARATHON runs this year on 30 October 2022 here in our Nation's Capital and Arlington, VA.

NEEDED: about 150 hams to provide communication as eyes on the course (144 and 420 MHz bands, FM and D-Star), for a Medical Data Network (AREDN), and as ultimate backup communication in case all else fails.

You will prepare yourself, your supplies, and your equipment to operate in a very large, multi-jurisdiction, mass casualty type event under real conditions. Members of Congress, Government officials, and our US Military will see amateur radio at work providing an important public service.

Training provided! And, yes, you'll get a cool T-shirt.
