

# Ham Radio Prep Class

Richmond, VA

Registration Ends February 28, 2023

- Tuesday nights, 7pm to 9pm
- 9 weeks, 03/07/23 to 05/02/23
- Classroom at Bon Air United Methodist Church

ARES Members!

You already have your license, and maybe you have friends that have expressed interest in ham radio, but haven't taken the steps to get their license.

They want to be like you, but they think it's TOO hard.

Now THEY can join in a classroom and experience exactly what they need to know to gain their Technician License or upgrade to General or Amateur Extra.

This is a great opportunity to learn in a small classroom setting. ***Please forward this to your friends. Registration is OPEN NOW, but ends February 28, 2023!***

## **Announcing! Classroom Training to earn your FCC Amateur Radio License!**

Join the 769,070 Amateur Radio (Ham) Operators already having fun, making friends and helping their communities with their Amateur Radio skills. Now you can learn and earn your FCC Amateur Radio license in a classroom with experienced ham instructors. Licensed hams enjoy communicating and experimenting with other hams worldwide with analog and digital technologies....reserved only for FCC licensed hams!

§ For Technician only, one member of a student's immediate family - such as parent and child or spouses - can attend free

§ When a student passes the exam he-she gets one year of free RARC club membership!

The testing dates are already scheduled soon after classes to get you up and transmitting!

Registration is open NOW for every class of FCC Amateur License

**The deadline for registration is February 28, 2023.**

Classes meet one evening per week at Bon Air United Methodist Church.

The cost for the class is \$22, the study guides are \$20-\$33 depending on the license class, testing fee is \$15\* and the FCC fee for new licensees is \$35\*.

**Class size is limited so visit [this web page now for more information](https://rarclub.net/license/class-schedules/) and to register: <https://rarclub.net/license/class-schedules/>**

\* 1) there is a testing group that offers the test for free

2) the \$35 FCC fee is good for 10 years (renew for another 10 years for \$35)
